Do not permit incompetent and unserupious doctors to maim and unsex you—at least until after you have consulted the German-American Doctors. The following people were cured after having suffered the tortures of hades and been repeatedly informed that nothing short of surgical procedure would save their lives: "Kirkham Avenue, Webster Groves, Mo. Sept. 1. 1980.—Gentlernen: Yours received, askirg for a statement of my case, I suffered from a Cancer of the Breast for skx years, and was told by my family physician that an operation removing my breast was the only chance of saving my life. HAWES TALKS OF OFFICERS NEGLECTING PUBLIC DUTY.

High "Bribe" Would Cause Congressman to Neglect Dutles.

Parls, Mo., Peb. 4.-Harr; B. Hawes, candidate for the Democratic nomination for Governor, addressed the Democrats of Monroe County at the opera-bouse in Paris to-night. The house seats 300 per-

sons and it was crowded. Mr. Hawes was quite caustic in his reference to Congressmen who remain away from Washington during the legislative sessions, intimating that only promise of reward could induce them to "neg-lect their duties."

Emphasis was placed on party loyalty.

Mr. Hawes spent the afternoon mingling among the farmers, who were in town in large numbers.

Mr. Hawes was introduced by R. N. Bodine, former Congressman from the Second District. Second District.

Among the prominent Democrats present were: W. M. Ferrell, chairman of the County Central Committee; J. H. Whitecotton, Speaker of the Missouri House; Editor Rouse of the Morroe Democrat; F. L. Pitts, former State Treasurer, and W. H. Alexander of the Paris Mercury.

NEGLECT OF DUTY.

If a farmer employs a man to chop a cord of wood for him and pays him for it he expects that the wood will be cut or the money rethat the wood will be cut or the money returned. When the people employ a public servant and pay him to perform certain work in their behalf they expect him to perform that work or not draw his salary.

There has been a special session of Congress and now Congress is engaged in a regular session. It is the duty of every Congressman to be in his place and attend to the duties of his office. If every Congressman in the United States stayed away from Congress and neglected the duties of his office, there would be no national legislation.

When the people employ a Circuit Attorney they expect him to devote his time to the duties of his office. When they employ a Congressman to attend to national legislation. It would seem that it would take a very high brile to cause a Congressman to corruptly neglect the duties of his office for some other purpose. The promise of the excise commissionership, a coal oil commissionership a coal oil commissionership a coal oil commissionership a coal oil commissionership at the world for the section of Beer Inspector would be alluring to a man who would soon go out of office and had no position in immediate prospect. But no matter how alluring or attractive the promise of position might be to a triving Congressman, he nevertheless, owes it a duty to his constituents to attend to the work for which he is paid, rather than to accept employment for other purposes. turned. When the people employ a public ser

The hired men of my opponent are claiming that I am not a bona-fide candidate.

They know this to be a lle, as each day it becomes more apparent to them that my supporters will be the dominating element in the next State Convention. I have entered into this context determined to succeed.

Gantt, Reed and Crow have not injected personalities into this compaten. My opponent in St. Louis and his hired men have. They must abide by the consequences. I will not run away.

UNEXPECTED HEIRS APPEAR. James Hanson and Son of Kansas Claim Rich Estate.

REPUBLIC SPECIAL Middletown, N. Y., Feb. 6.-John Wright died at Bloomville a few weeks ago, leav-ing considerable property. They learned of the man's death through persons residing at Bloomville. If the Hansons establish their relationship it will cause a great change in the contemplated disposition of a large estate.

OURSELVES.

Our reputation and work is not of a mushroom growth, nor is it the experience of one man. In complicated cases the entire staff consult without extra charge, thus retting the knowledge of five in place of one. Our experience of twenty-nine years tells us what to do, and so we do not have to experiment. We are incorporated and chartered by the State of Missauri and our reliability cannot be questioned.

PRIVATE DISEASES

We cure all diseases of a private na-ture about which most people d'slike to consult their family dector. We cure them quickly, safely and surely. Abso-lute secrecy assured.

PROSTATIC DISEASE

Paralytics and cripples throw away their crutches. We have startled the dittens throughout the land by our exemingly miraculous work, and the most skeptical have been convinced because what the eye sees the heart must believe. Our methods of treatment of cases of this character are not by medicine sizes, and when once cured they stay cured. If you are discoursed, come to us.
